

## **Accessories**

### **Torsion Spring Kit**

**P/N 100570**

*\*Our Sportworks Northwest, Inc. design objective is to make our products accessible to all people. While our racks are designed to be deployed and stowed without assistance, we figured making things even easier was added benefit. Made of corrosion resistant stainless steel, this spring aids in the raising and lowering of our racks. Now standard equipment on our larger Trilogy™ three bike rack, bolting it on to existing racks or adding it to a new rack purchase is an easy and inexpensive way to make taking your bike on the bus that much more enjoyable.*

### **Deployment Indicator Kit**

**P/N's 100462, 100584, & 100720**

*\*Created to address the needs of our customers, the deployment indicator is designed to notify the driver of a deployed bicycle rack that is in use. Working by a weather proof magnetic switch, this kit illuminates a light on the dashboard indicating that the "bicycle rack is deployed." Because of its simple design and minimum number of parts, this add-on aids in the safe, easy operation of your transit vehicles and meets California vehicle code guidelines.*

## Advertising Panel Kit

**P/N's 100715, 100751, & 100756**

*\*Maximizing your advertising space was the motivation behind the development of this accessory. Designed to fit our DL2's, DL3's, and VeloPorters this unit provides a visible 13" x 32" or 14" x 44" advertising space. Easy to bolt on as a retrofit or add it into your new rack specifications.*

## Kwikstand Display Stand

**P/N 100282**

*\*Showing the benefits and features of this unique product to riders is often hard to do when the bus is traveling at 40 miles per hour and equally inconvenient in the bus yard. Because we know there are times when you need this rack to be static, we offer a simple display stand that incorporates our bike rack and pivot plate to complete the assembly of this display unit. Use this to showcase other accessories up for review such as our Torsion Spring and Advertising Panel. This stand works great for public education.*
